

United Hebrew Geriatric Center Partners with Burke Rehabilitation

Burke's only network partner in southern Westchester expands rehabilitation services

New Rochelle, NY - (March 14, 2007) - United Hebrew Geriatric Center (UHGC), a multi-service senior living campus in New Rochelle, NY, today announced that it has partnered with The Burke Rehabilitation Network to enhance its on-site rehabilitation services for UHGC clients and residents following disability, illness or injury.

The sub-acute rehabilitation program provides clients short-term care that fosters independence and enables them to return home soon after their rehabilitation is complete. Staffed by Burke specialty care professionals, UHGC's sub-acute rehabilitation department offers complex care in a nurturing environment. The program incorporates the most advanced techniques into individualized treatment plans that result in better outcomes.

"Partnering with a nationally-renowned organization in the field of rehabilitation enriches our residents' experience," said Rita Mabl, UHGC CEO. "Our plan includes restoring strength, mobility and functional abilities. Our focus is always on the individual patient. That's why our therapists work with the same clients every day."

Clients who require rehabilitation services can take advantage of Burke's proven treatment methods and an outcomes management system that evaluates patient progress by utilizing pre- and post-rehab data. UHGC clients also work with a team of dedicated managers and specialists for their individual needs.

Rehabilitation services include physical, occupational and speech therapies. Specific care areas include orthopedic, stroke, cardiac and wound care and post-amputation care. Rehabilitation specialists utilize a multi-disciplinary approach to delivering care and provide social services and discharge planning.

"We are thrilled to partner with United Hebrew Geriatric Center and align ourselves with one of the area's premier care facilities," said Janet Herbold, Senior Administrator of Network Rehabilitation Services, Burke Rehabilitation Network.
